

Dear

We currently have the opportunity of running a course at your school which will give you an internationally recognised qualification to teach English as a foreign language – TEFL.

This qualification will enable you to work and travel all over the world, to make the most of your travelling experiences and will help to make your university application stand out from the crowd.

Teaching English as a Foreign Language is also a great way for you to improve your CV, to build your confidence and to obtain a greater understanding of English grammar.

The global demand for English teachers is enormous and with an i-to-i TEFL qualification under your belt, you will have the skills, the knowledge and the practical know-how to teach anywhere in the world - and have the certificate to prove it!

We understand the pressures that you have in the week – therefore we can organise for the course to take place over the weekend in your school.

There are limited spaces for this course so to save your place and for more information please contact:
