## IMPORTANT

You must arrange Travel Insurance to cover the full extent of your trip arranged by Nutty's Adventures to include all activities that you will be engaged in for the total duration of your stay.

We strongly recommend that you obtain advice from a professional insurance provider who has specific knowledge of Travel Insurance who can provide you with the appropriate policy and explain to you the extent of cover being provided including policy exclusions, conditions and restrictions that may apply.

The main purpose of travel insurance is to cover you for the potentially high cost of medical treatment and repatriation if you are injured or fall ill abroad. This should include:

- emergency medical treatment costs, including hospital charges and ambulance fees
- returning you home following medical treatment abroad if you cannot use your original ticket
- reasonable additional transport and/or accommodation expenses for a close relative or friend to stay with you or travel from your home country to escort you if required
- temporary emergency dental treatment for the relief of immediate pain
- 24 hours assistance helplines to offer support and advice about appropriate treatment

It is important to answer any questions from your insurance provider about your medical history fully and honestly. Withholding details of your medical history may mean you are not fully covered.

From our experience it's important that you look out for the following things to ensure that you are covered when you need it. It's always best to talk to the insurance provider rather than simply buying a policy from the internet so you know exactly what you are getting.

- **Duration of cover** – you can buy annual policies that will cover you for a full year but these tend to have limits on the length of each trip e.g. 1 month. Make sure that the policy you buy covers you for the full duration of your time overseas
- **Activities** – make sure that any activities you think you might do while you are overseas are covered. Many insurance policies exclude activities such as riding motorbikes which are a very common mode of transport in many countries
- **Exclusions** – check the exclusions on any policy before you take it out so that you are aware of them. For example, some policies will exclude cover if you have an accident whilst under the influence of alcohol

I confirm that this insurance policy will cover the duration of my trip and activities planned.
